

Aditya Musale

Web Developer

Creative Frontend Web Developer specializing in developing premium user interfaces using React.js bringing in-depth knowledge of the latest technology trends to produce clean website UI. Experience handling complex Javascript, React, and CSS code and design to meet the organization's front-facing internet needs. Detail-oriented collaboration with others to define project expectations and demands. Hands-on testing and debugging to address inconsistencies and maintain performance thresholds.

Projects

Instagram Clone

[Visit Site](#)

- An Instagram Clone which actually works like Instagram
- You can create an account using Facebook or an Email
- You can edit your profile, post some interesting pictures, comment, and even follow others
- It is a completely responsive site created using modern web tools like React.js, Tailwind CSS, Firebase and Sass

Clothing House

[Visit Site](#)

- Clothing House is an e-commerce app where you can buy latest trendy clothes
- It's a PWA so you can use it as an app on desktop as well as on mobile phones
- I've use Stripe for payment integration
- It is a completely responsive site created using modern web tools like React.js, Redux for state management, Firebase and Sass
